Monthly News & Events from your Neighborhood Home Owners Association — August 2022

President's Message

Well July was a quick month with many people getting away for a vacation or two. Our family enjoyed meeting up with extended family in Kentucky.

The pool did the normal slow up after the 4th and we are now to swim at your own risk during the week and lifeguards during the weekend. I'd like to thank Linda our Pool Manager, Tommy, Gary, the guards, and the concessions workers for an awesome job this summer. The pool was a great place to meet and catch up with friends and neighbors.

School has started back up and for parents its either making it crazier or giving them a little break or a little of both! Our kids are excited to go back to school to see and make new friends. Please be on the lookout for kids walking and riding their bikes to Warren Elementary while you're driving to work.

I hope you enjoy Labor Day Weekend which is just around the corner.

Greg

FALL YARD SALE
September 30th & October 1st

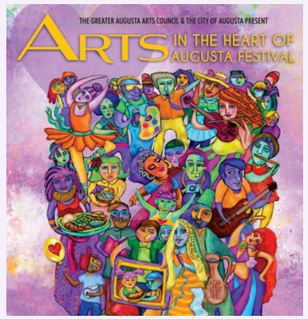

Online Payment Portal Information

Montclair HOA Dues - Pay Online!
Just go to

UPCOMING BOARD MEETINGS:

SEPTEMBER 1ST @ 6:30 PM
WINDING WOOD PAVILION
(WEATHER PERMITTING)

Gardening IN MONTCLAIR

with Suzanne Thomas, Master Gardener

September 2022. Montclair has just come through possibly the hottest summer on record. Climate change is real and we are living with the consequences. What can we do to stop the progression, or even begin to reverse the consequences of climate change? These are a few things you can do.

Recycle. Call 311 and have them deliver a blue recycling truck to your home. Fill it with household waste products including cardboard, packaging materials, drink cans, metal items, plastic containers, newspapers, and other products. Don't send any of those items to the landfill in the garbage can. Recycling is included in your sewer bill. So there is no additional charge.

Conserve. When you drive to the store, park your vehicle, turn off the motor, and go inside. Do not leave it idling while you go inside. Leave children and pets safely at home. Other passengers should go inside with you. With the cost of gasoline, it really doesn't make sense to waste it this way. The vehicle's motor generates tremendous heat and smog, making it worse for all of us. So turn it off and go about your business. We will all thank you.

Upgrade. When you can, upgrade your gasoline powered tools to electric powered tools. When you buy another vehicle, take a close look at the electric powered vehicles that are becoming available. EV (electric vehicle) power stations are located around the region and many more are on the way. Soon you will be able to realize a $7500 tax rebate for purchasing an EV.

Maintain. Set your thermostat at 78-80 degrees and turn on the fans. Change the filter for the HVAC system once a month. Have the HVAC system serviced in spring and in fall to ensure optimum functioning and long life for this vital but very expensive home equipment. Have your vehicle serviced regularly to prevent smog and save expensive repairs.

Be proactive. Plant a tree and water it thoroughly through all four seasons. Trees are like clean air fountains. We need trees. We have a rapidly growing number of new residents in the surrounding areas. Contractors regularly strip away all vegetation to prepare for building. More cars, fewer trees and green plants means much more air pollution and climate change. So our air quality has declined. Please plant a tree this fall.

Avoid "disposables." Reduce your use of plastic—plastic plates, cups, utensils, bags, wrap, straws, etc. Reduce your use of paper plates, napkins, paper towels. Instead use glassware---plates, bowls, and drinking glasses. Use stainless steel utensils. "Disposables" just pollute our lands and our oceans. Let's all do our part to stop climate change. Thanks.

A big thank you to our volunteers and Montclair coaches who made the Montclair Makos Swim Team such a success this year! We had a lot of fun and made so many memories!

Go Makos!!!
