President's Message

Hi neighbors!

The weather is warming and anticipation is growing – for more outside activity! Look for the announcements in the Montclarion for upcoming events and important dates. We have been taking applications for pool job opportunities and are getting some good applicants. We are making ready the pool for another exciting season, and finishing repairs on lights and other equipment at the pool.

Upkeep and repairs at the Crane Ferry Park are also continuing.

Remember the Park and Pool cleanup day coming April 22nd and Yard Sale weekend on 28-29! Also look for the Food Truck Friday events posted in the newsletter.

I would like to give a shout out to Joey Aranda. Joey has held many positions on the board over the years. He has been the " go to " for past history, decisions and operations related to the workings of Montclair. His dedication to the community and voice on the board is always present during the meetings and community projects. Thank you!

Another exciting month is upon us! Let's get started!

Gardening IN MONTCLAIR

with Suzanne Thomas, Master Gardener

The four necessary components for plant growth are light, water, air, and soil.

Light: If you have space on the southeast side of your property where there is shade in the late afternoon would be an ideal place to set up. In our extremely hot summer days that last 12 hours, plants need relief from the intense heat and light. If they have at least eight hours of sunlight, that is what they need to produce fruit.

Water: Choose a place where you have access to watering equipment. Be sure the structure has openings at or near the bottom edge for drainage. Set up the watering system before you plant.

Air: Of course, choose a place outdoors where summer breezes can help cool, pollinate, and refresh plants.

Soil: Recommendations are from ***Square Foot Gardening***, (2018, 3rd ed., M. Bartholomew, Quarto Publishing). Mix together: 1 part coarse vermiculite; 1 part compost that includes plant materials and animal manure (not dog or cat wastes); and 1 part peat moss. Since peat moss is becoming a scarce, non-renewable product, you may substitute cocoanut grindings or shredded paper. The ink used in newspaper and most office printers now in use is non-toxic.* Garden centers carry bags of "Raised Bed Soil" that probably does the job. Look at the label to check for inclusion of necessary micronutrients, including nitrogen, phosphorus, potassium, sulfur, calcium, magnesium, iron, manganese, boron, copper and zinc, and molybdenum. These are usually found in the three prime ingredients listed above and are necessary for plants to thrive.

*One of the best gardens this writer ever had included bags of shredded paper in the soil mix.

Happy gardening.

SWIMMING POOL NEWS

We are very excited for another Swim Team season! Registration for the swim team will open at the beginning of April and will be available at: https://montclairmakos.swimtopia.com/

First day of swim team practice will be May 15th. Please register online before this date! Home meets will be June 13th and 20th this year.

Please let us know if you have questions. Check out the website for more information, and we look forward to seeing you at the Pool soon!

Montclair 2023 Pool Registration is active and located on the Montclair HOA Homepage at https://montclairhoa.org/pool-online-payment-portals/. Please select your option button to complete your online registration payment.
