Monthly News & Events from your Neighborhood Home Owners Association — June 2022

President's Message

Summer is in full swing. The Montclair Mako's swim team has hosted our two home meets against Brynwood and Hammond Hills early this month and are finishing up the swim season with two away meets against Fermata (Aiken) and Jones Creek. We have had a growing season with 122 swimmers this year. We have a lot of little bits in the 6U and 8U which is great news for our future teams. The pool and swim team adds a great element to Montclair's culture. This culture has been built on the backs of great neighbors like the Ristrophs, Jacksons, Barretts, McBrides, and many others that I don't even know about.

Another area of our neighborhood that is adding to our culture is our pickleball courts. It has grown to the point that we have capped the non-resident members, but are always looking to add our resident membership. Just like the pool, this culture would not be the same if it hasn't been for Anne Rheins, Felzs, and the Arandas. I love going over to the park to walk my dog, take my kids to play at the park, or play pickleball with my kids. The people are friendly and care for our park. If you are interested in joining, please contact Anne. If you are a pool member the courts fee is waived and you only need to sign up with Anne. If you only want to join the courts, it's $40 for a year membership. Anne thank you for all that you do and we are so grateful for you being on the board.

Lastly, the biggest Montclair event is just around the corner. The 4th of July party up at the pool. This year thanks to Lantz, we will be having a big water slide in the park to enjoy as well as all the pool games. BBQ tickets ($6 per person/$42 cap per family) and 4th of July Pool Day passes ($5 per person) will be on sale up at the pool concessions starting Saturday 6/20.

Greg

- Water Slide
- And much more!!!

UPCOMING BOARD MEETINGS:

JULY 7TH @ 6:30 PM
WINDING WOOD PAVILION
(WEATHER PERMITTING)

Gardening IN MONTCLAIR

with Suzanne Thomas, Master Gardener

July in Montclair brings heat, humidity, sun and hopefully rain. Rain is one of the very best features of living in Augusta. Even though we have periods of drought, we have more rain than many other places in this country. And the combination of rain, sunshine, warm weather, and highly fertile soil means that we live in a semi-tropical paradise. Keeping all that beauty from becoming a jungle requires diligently tending the land. We daily remove weeds, wild trees, vines, debris, and animal wastes. We occasionally pick up trash that uncouth people have tossed onto the street. Tending includes mowing, trimming, edging, and watering. It's a job to keep a nice yard! You know that! So, what can make this easier? What can make it more efficient?

Lately, some Montclair neighbors have invested in electric powered yard tools. What does it cost? An electric lawn mower that requires an extension cord costs around $130. My friends tell me they are light weight and easy to handle. They just have to manage not to run over the cord. An electric lawn mower that is battery powered runs about $250. If the batteries are on board, it is heavier to manage but they don't worry about having a cord. Still, its weight and handling are similar to the same size gasoline powered mower.

The thing is, electric power tools are better tools. They do not generate greenhouse gases like gasoline powered tools. And they are quieter—no Saturday morning roar outside the bedroom windows. Just a buzz cut on the neighbor's lawn.

How then is electricity produced to power our lives in Augusta? Georgia Power uses nuclear, solar, hydroelectric, natural gas, oil, coal, biomass, wind, and landfill gas to produce electric power in Georgia. (See Georgia Power.com/energy sources) The greatest amounts of greenhouse gases come from coal, oil, and natural gas. Nuclear, hydroelectric, wind, biomass, landfill gases, and solar systems generate very low amounts of greenhouse gases. (See Greenhouse Gas Emissions, Clemson University Extension Service, Johnston, AH August 2012.)

Why is that important to you and me? Greenhouse gases have contributed to the loss of earth's protective atmosphere (ozone layer) and that has meant increasingly hot summers with new heat records, very violent storms, and water levels increasing along the coast. *What you do makes a difference to everyone else. What they do affects you and your family.* Consider investing in an electric lawnmower this summer as one important step towards a better life for yourself and your family.

So, if we homeowners switch to an electric lawnmower this summer will it make a difference? Yes, it will! Montclair will have cleaner air that translates to healthier people, plants and pets. Just think: if everyone in Montclair switched to electric power tools...

Keep cool in the pool.

SWIM TEAM NEWS

Montclair Makos vs Hammond Hills was our last home meet of the season and WOW! What a full turnout!! It was great to see kids and their families back to swimming and cheering in person!

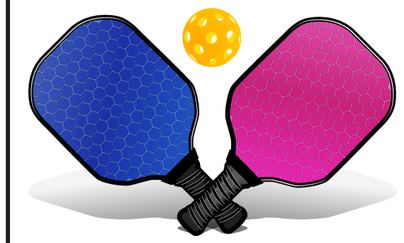

COURTS NEWS

Pickleball courts are on track to add an additional 30k to our budget. Did you know, this revenue has helped fund park projects and repairs, like the recent plumbing and bathroom updates at the pool, bridge update in the fall, and other planned improvements at the pool?" Without the revenue generated through pickleball, these upgrades would not be possible!

Wes Hopkins, Treasurer

MONTCLAIR NEIGHBORHOOD POOL

POOL HOURS

Swim at your own risk:
Monday- Friday 7 am- 9 pm
Saturday 7 am- 8 pm
Sunday 1pm- 9 pm
Members only during Swim at your own risk, no guests!
