Monthly News & Events from your Neighborhood Home Owners Association March 2023

President's Message

Hi neighbors!

The time is clicking by so fast. It never seems you can get "caught up" with all the hustle and bustle of life going on! I believe the ground hog was wrong...seems the weather is getting warmer all the time! We are continuing to address upkeep and repairs to our neighborhood facilities. This month is the beginning of the prep to prepare the pool for another great season. Plans are underway to repair some of the fence posts at the courts and barrier repairs.

Don't forget to apply for the pool job openings for this coming season! Time is now! Remember, the annual cleanup for both parks will be in April followed by the community yard sale weekend.

I would like to give a shout out to our bookkeeper – Catherine. Her commitment to our community in keeping Montclair's financial matters in order is unmatched! Her guidance on the accounts, financials, bills and a whole host of other matters keeps our neighborhood in compliance with the many obligations that must be met. All while raising a wonderful family at the same time. I thank her for her dedication to keeping things in order.

The progress continues! The chores do not end! The fun is just beginning!

David

Gardening IN MONTCLAIR

with Suzanne Thomas, Master Gardener

April in Montclair has wonderful weather. Approximately April 15th is the time when soil temperatures are warm enough for plants to begin to spread their roots and grow. Plants should be hardened off gradually. Place them in the sun on a warm day bring them inside at night, then plant them in the prepared soil. Remember: tomatoes need dolomitic lime to prevent blossom end rot. Add that at planting and once a month to support fruit production. A hearty dose of composted manure will cause plants to grow tall with many deep green leaves. But plants also need additional nutrients. If you turned in those rotted leaves from last fall, many of the nutrients necessary for a thriving garden are in place. All supplements should be underground and well mixed befor setting plants into the soil. Be prepared to cover plants if the weather drops below 37 degrees.

Lawn care is especially important in April. Pull weeds and cut the new growth, but please do not fertilize until May 1st. Why? Because a late frost can kill newly sprouted grass. And it happens almost every year. Trim shrubs after they have bloomed to maintain shape and size. Trimming encourages new growth which is important in spring. Don't forget to water newly planted shrubs and trees. They must establish a wide root system to endure our hot, sometimes dry summer weather. It is ok to apply a light fertilizer to them now. Be sure it includes some potassium (the K number in NPK) to help root development. The better fertilizers also include the micronutrients that you don't hear so much about but that are equally important to plant growth and development.

Enjoy just being outside in spring.

SWIMMING POOL NEWS

We are very excited for another Swim Team season! Registration for the swim team will go live at the Beginning of April and will be available at: https://montclairmakos.swimtopia.com/
Applications for head coach and assistant coaches are available on Indeed.com by searching for swim coach in Augusta, GA.
We will have spots open for junior (volunteer) coaches again.
Please let us know on your application or by email if you have a teen interested in helping with our youngest swimmers.

First day of swim team practice will be May 15th. Home meets will be June 13th and 20th this year.

Please let us know if you have questions, check out the website for more information, and we look forward to seeing you at the Pool soon!
