Resident Questions:

1. Joey Aranda stated he felt the board should not be counting the ballots for the election, that this should be done offsite away from the board by an independent group and then the board told of the results by the other party. Board members responded that is not the case, all board members witness all ballots opened, the votes tallied by an officer and counted by the HOA staff (bookkeeper).
    a. **Legals response after the meeting 10/01/2025**: Mr. Aranda is incorrect. Montclair's bylaws do not require that the HOA use a 3rd party to calculate votes or calculate votes taken at a properly scheduled meeting of property owners at a separate location. This would be an unusual requirement therefore it would need to be specifically written into the bylaws.
2. Ron Harden had some questions on the yard maintenance and the status.
3. Mary Gill made complaints regarding the Jim Hudson property. Numbers for the lawyers of Jim Hudson was provided to the board, and David is going to follow up about the lot in bad shape.
